Over the years I have tried off and on to master the Japanese language, with some limited success. Certainly, I can get around Tokyo on trips and such, but I'm still years away from being able to read the Japanese paper.

So, this year, I'm especially excited to tell you about the new "learn Japanese" section we've added to the catalog. We've compiled a number of great reference materials, learning and study guides, and media materials (including CDROMs, DVDs, and audio CDs) that you can use to study. Many of these have been of great use to me when I need to brush up for my next big trip overseas.

As many of you know, we've settled into our new facility and made it through our first big holiday season with our expanded warehouse space. I'm excited to say that our building is allowing us to stock even more products than ever before and increase order fulfillment speed.

2006 looks to be an interesting year - several

older series are being re-released in bargain priced box sets and there are really some amazing new titles coming up. Obviously, I'm excited about our releases of *Boys Be...* and *Ninja Nonsense*. We've also returned to our roots, with our release of the classic 1963 *Astro Boy* in two giant box sets - the whole series, presented in its original U.S. form, for the first time in more than 40 years.

If you really want a way to tune into what's going on in anime, subscribe to our bi-monthly podcasts! You can listen to them with your ipod, any mp3 player, or on your PC. Check out the latest episode posted at www.animetoday.com.

The catalog in your hands contains all of the items that are coming up for release or have been released within the last six months, plus our top sellers. If there's something that you're looking for that you don't see, be sure to check our website (www.rightstuf.com) or drop a note to our customer service staff, and we'll be happy to try to help you find what

you're looking for. Remember - the industry is constantly announcing new titles, so we're always adding more!

Just a brief reminder: all of the adult-oriented products are still segregated in their own sealed section. If you're not interested in this material, the section is perforated so that it can be easily torn out and discarded.

Certainly, we wouldn't be where we are today without our loyal customers. We really appreciate your business, and if there is anything that you think we might be able to do better, or if you have any suggestions, please feel free to email them to me directly.

Have a great spring!

Best regards,

ANIME TODAY

— the fans are listening™ —

FINALLY SOMETHING FOR ANIME FANS!

Ever been driving to work, flipping through the radio stations and wishing that, instead of shows about the latest celebrity dish or political rhetoric, you could listen to something that spoke directly to you, the anime fan? An intelligent show that actually talked about the things you want to hear about: anime, anime and more anime!!

Well welcome home, because Right Stuf has unleashed Anime Today: the world's first commercial podcast dedicated to you, the otaku! It's chock full of anime and manga views, news, and reviews – and best of all, it's totally free! (Minus the cost of the computer/iPod, of course.)

ANIME TODAY: FROM CONCEPT TO REALITY

The idea of putting together a Right Stuf podcast dates back to the summer of last year (2005). Rich Harms and Nick Tann of Right Stuf's Information Technology department were discussing how podcasts were becoming really popular. Why hadn't anyone in the anime industry made one yet? Fortunately, *they* worked in the industry. Seeing an opportunity, Rich talked to Shawne, Right Stuf's CEO, and got permission to put together the very first commercial anime podcast.

talk about his upcoming sales and deals. Kris Kleckner and Judy DeFrieze, fresh from a trip to Japan, were more than happy to discuss their wild adventure overseas. All these were quickly added to the growing list of program segments. In addition, Chris Beveridge of AnimeOnDVD.com also graciously allowed Right Stuf to use some of his site's DVD reviews in the first few episodes.

So it was that on November 11, 2005, the very first episode of Anime Today was launched, and immediately proved to be overwhelmingly popular. So popular, that additional outside bandwidth had to be purchased to support the heavy download demand. A surprise, but also a very happy one for Rich and Nick, for all the hours they'd put in to developing the show had really paid off.

INSIDE THE WORLD OF PODCASTING

Looking back, a lot has changed since the debut of that very first episode. The recording and editing of that first episode took two months. Now it takes only 3-4 days. But I'm already getting ahead of myself!

Just how is an episode of Anime Today made? Well first, and foremost is the content. The content of each episode is decided via a roundtable discussion, where everyone sits and tosses out ideas. Now – and this is a very important point – the biggest key to this stage is: picking someone who can actually write legibly enough on our giant whiteboard to be able to read it later! (A very difficult person to find.) After we're done wiping away the tears of laughter from all of our really terrible ideas, the good ones get jotted down for use either in the current episode or a later one.

For some segments, like the Anime & Gamer's Guide to Japan, that roundtable discussion may be all the preparation that's required before sitting down to record, but many other segments require a lot more time

A PODCAST? HUH..P IS THAT SOME SORT OF VEGETABLE?

Nope! Sorry, it's not edible. "Podcast" actually comes from a combination of the words "iPod" and "broadcast." As you can probably guess, the term is a result of Apple's trend-setting ability to market their iPod audio player, coupled with the millions of people rushing to create their own personal internet audio broadcasts. While an iPod is not technically required to listen to a podcast (in fact, just about any audio player will play podcasts these days), because of Apple's marketing of the iPod, the term "podcast" stuck.

So, basically, think of a podcast as a radio show, except that instead of tuning in, you download it and drop it on an mp3 player, or any other audio program on your computer. Just like radio shows, podcasts can contain both music and dialog, and are often broken up into many individual segments. This being the digital age, some podcasts (including Anime Today) also offer "enhanced" versions, which contain pictures and chapter stops between each different segment.

Unlike ordinary radio shows, podcasts can be made by just about anyone who has a computer and someplace to post a file on the internet, since it doesn't require access to expensive recording or broadcasting equipment. Naturally, this means that there are hundreds of thousands of podcasts being made by all kinds of people on all kinds of topics, ranging from Harry Potter to "Things I Have Recently Set on Fire" and (of course!) anime. Which brings us to Anime Today!

and energy. And although Chris Beveridge was kind enough to let us use his reviews for our initial episodes, we eventually decided to start up our own in-house reviews – which means that for every episode we do, a DVD must be watched or a manga read, and then analyzed. As one of the reviewers, this is basically my job so I can tell you they take quite a while to write. The then there's the other segments such as "What's Hot?", and information about the latest contests. All of that has to be written in advance by someone too.

Once everything has been approved, it's off to the recording studio! This is everybody's favorite part. For my part, I say this ironically because recording often involves fiddling with the microphone (which I'm not supposed to do), furiously crossing out phrases that sounded good until I tried to speak them out loud, and of course the required giggling over mispronounced words that I should have learned how to say back in third grade. All the while, a very patient Nick, who is in charge of recording, keeps an eye on sound levels and makes notes on which of my swear words will need to be edited out. Shawne, because of his busy schedule, is always recorded very last.

Once recording is finished, the editing begins. Each 5-minute segment of the show means over an hour's worth of editing for poor Nick – more if Kris and Judy were in the recording booth. Nick snips together the very best portions of each recording and strings them together to create magic. And, of course, with editing comes the one part Nick loves best: looking for the most hilarious bloopers to put on the end of each episode. Fortunately, this takes less time if Kris and Judy were in the recording booth.

When all of the individual segments are finally completed, Nick adds all the little bits that really connect the show together: the introductory segments and the in-between music. At first, Nick was composing and creating all of the music himself, which proved to be a very time consuming endeavor. Then, at a suggestion from one of the staff, we asked for help from a fellow industry member: Geneon Entertainment. They were kind enough to allow us to use excerpts from their extensive music library in each of our podcasts.

And what's audio without picture? The very last thing that Nick adds is the enhanced features which include pictures and chapter markers, and then it's ready for its big internet debut on AnimeToday.com!

While the entire process doesn't sound that difficult, putting everything together for each new episode every two weeks is a lot of work. But, it's worth it to hear the positive feedback we've been getting from fans who really love the show.

FORWARD TO THE FUTURE!

As I write this, Anime Today's popularity continues to grow. With each new release, the staff gets a little more comfortable in this strange new pod-land. And, also as I write, the team is currently working to develop more new segments and fresh ideas for the future – a future that Rich hopes will be quite a long one.

U.S. ANIME BEFORE '63?
THERE WAS
NO SUCH THING.

ASTROBOY

Anime, as we know it in the U.S., really began on New Year's Day in 1963. That's when the series *Tetsuwan Atom* (in English, "Iron-Fisted Atom") began running on Japan's Fuji Television Network. The star of the show was a little boy robot, a kind of futuristic Pinocchio, created by Tokyo artist Osamu Tezuka. The artist had originally created that character in his manga in 1951, and the character immediately clicked with Japanese readers. In 1962, the Fuji Network signed Tezuka to produce, in his newly-formed Mushi Production studio, the animated series *Tetsuwan Atom*. It premiered on January 1, '63, was an instant hit, and ran for an incredible 193 episodes - a record that stood for many long years.

In New York, NBC Enterprises, a cousin of NBC Television Network, got wind of the show and checked out a few early episodes. They liked it well enough to call in an independent writer-director. They liked it well enough to dubbing foreign-made kids' pictures, and for producer known for dubbing foreign-made kids' pictures, and for making his own animated feature *Pinocchio in Outer Space*, that

person was yours truly, Fred Ladd. I liked the show, which was soon re-christened *Astro Boy*, and made a pair of pilot episodes: #1) "The Birth of Astro Boy", and # 3) "Expedition To Mars". It quickly became apparent that *Astro Boy* was not another *Pinocchio*, but was winsome in his own way. Unlike Pinocchio, who didn't know the difference between right and wrong, Astro Boy always knew the difference - and, from the start, he was a fighter for what he saw was right.

Astro Boy became the ward of Doctor Pachydermus J. Elefun, head of The Institute of Science. Because Astro Boy's robotic senses were so much sharper than those of any human being (he could hear sounds that not even trained police dogs could hear), he would pick up clues and solve crimes that stymied even Police Chief McLaw and Detective Inspector Gumshoe! Small wonder that the police held the little robot in contempt: what human captain would want to take orders from a robot... or admit that the little boy robot was smarter than him?

Looking at the completed pilot episodes, all of us in NBC's corner knew that we had a winner on our hands. The series premiered in the fall of 1963 on WNEW-TV Channel 5 in New York. It did so well that *Astro Boy* was quickly snapped up by dozens of other TV stations across the United States. The original plan was to acquire and adapt 52 of the half-hour programs from Japan; instead, NBC acquired double that amount - 104 episodes of the total 193 produced by Tezuka.

For years, *Astro Boy* - an animated kids' show filmed in black-and-white - delighted millions of children in America and abroad. Then, in 1965, color television arrived on the scene. Black-and-white cartoons faded from sight, as they were replaced by series made in color.

In 1975, NBC attempted to return the black-and-white series to Mushi Production. But, by then, that studio had gone into bankruptcy; Mushi was in no position to accept thousands of prints and negatives being returned at Mushi's expense. So, prints and negatives were destroyed - reduced to ashes! (some would say "miraculously"), a number of prints escaped destruction, and were acquired by collectors. Beginning in 1989, The Right Stuf International began to gather together the surviving materials, restore them, and digitally enhance them. In some cases, the original negatives in Tokyo were accessed, duplicated, and meticulously integrated into the existing rolls in America and Australia.

In 2006, through the magic of modern technology and time-honored blood, sweat, and patience, The Right Stuf International has proudly released *ASTRO BOY: The Original 1963 Television Series - Lost, Found, and Restored*.

Enjoy!

Fred Ladd
Original U.S. *Astro Boy* Director
written March 2006

Osamu Tezuka created a revolution in manga and anime. Born in 1928 in Toyonaka, in Osaka, Japan, he was raised in the nearby city of Takarazuka. From a very early age he loved to draw. When he was eighteen, and enrolled in university as a medical student, he made his debut as a cartoonist with a four panel cartoon strip titled *Ma-chan's Diary*. Not too long thereafter, paperback compilations of his longer stories, with titles such as *New Treasure Island*, *Lost World*, and *Next World*, became smash hits, selling what was then unthinkable for comics - over 400,000 copies each - and making him nationally famous.

Although Osamu Tezuka eventually received his physician's license, he chose to devote his life to comics and animation rather than practice medicine. In doing so he brought an unusually creative and educated mind to both fields. Particularly in comics, he pioneered long narratives of hundreds, even thousands of pages, bringing "cinematic" art styles and novelistic plots to the medium. By 1950, he had firmly established his position as the leading comics artist of his day when he serialised his now classic work, *Jungle Emperor* (also known as "Kimba the White Lion") in the monthly magazine, *Manga Shonen*. Then, in 1952, he began serialising *Mighty Atom*, in the young boys' monthly *Shonen*. *Mighty Atom*, which later became known to the world as "Astro Boy," continued until 1968, becoming one of Tezuka's most popular and famous works.

Tezuka did not stop with *Atom* however. He began turning out one hit after another, with *Princess Knight* in 1953, *Ambassador Magma* and *W3* ("Amazing 3") in 1965, *Vampire* in

1966, and *Dororo* in 1967. In 1967 he also began drawing what he called his "life work", *The Phoenix*, and creating comics targeted at a more adult audience.

Tezuka continued creating comics with powerful, original themes throughout his long career. Some of his best known later works include *Ode to Kirihito*, 1970; *A History of Birdmen*, 1971; *A Hundred Tales*, 1971; *Ayako*, 1972; *Black Jack* and *Buddha*, 1973; *MW*, 1976; *A Tree in the Sun*, 1980; *Tell Adolph*, 1983; Ludwig B., 1987 and *Neo Faust*, 1988. In his lifetime, Osamu Tezuka drew nearly 150,000 pages of comics, and he created over 1,000 highly individualistic characters to populate his stories. Altogether he created over 500 different titles of works.

Osamu Tezuka was not just a comic artist, he was also an animator. In 1961, he formed his own animation studio - Mushi Productions - and began animating one after another of his own creations. He was involved in the productions as director, scenario writer, key drawing creator, and art director. Animated works created by Osamu Tezuka include not only Japan's first television series' such as *Mighty Atom* ("Astro Boy"), *Jungle Emperor* ("Kimba the White Lion"), *Princess Knight*, and *W3* ("Amazing 3"), but more adult-oriented theatrical features such as *A Thousand and One Nights*, *Cleopatra*, and others. In 1968, Tezuka formed a new studio to replace the old Mushi Productions, and called it "Tezuka Productions." Among the many works produced at Tezuka Productions were Japan's first two-hour TV animated special, *Bander Book*, in 1978; a new colour version of the *Mighty Atom*, or "Astro Boy," TV series, in 1980; and *Phoenix 2772*, a theatrical feature, also produced in 1980.

Osamu Tezuka passed away on February 9, 1989, but the works he left behind will live forever. Today Osamu Tezuka's spirit and his creative works are being preserved and popularised around the world by his company, Tezuka Productions. Tezuka Productions is actively involved in creating foreign language editions of his comics, and thus far, publications of them have already begun in such nations as Taiwan, Hong Kong, and Indonesia. Tezuka Productions is also actively planning to produce films based on original Tezuka stories. As an example of this, recent Tezuka Productions has recently produced several highly successful Japanese series: *Astro Boy* 2003 TV series; *Hi no Tori* 2004 TV series; and the new the *Black Jack* 2004 TV series and 2005 Movie.

On February 10, 1989, the day after Tezuka passed away, Japan's Asahi newspaper explained the contribution of this great artist as follows:

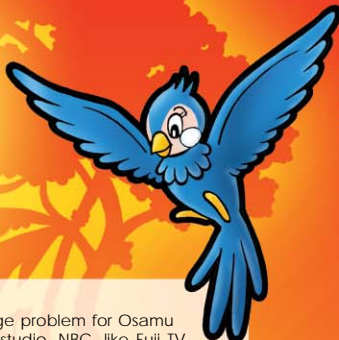

"Foreign visitors to Japan often find it difficult to understand why Japanese people like comics so much. For example, they often reportedly find it odd to see grown men and women engrossed in weekly comics magazines on the trains during commute hours. One explanation for the popularity of comics in Japan, however, is that Japan had Osamu Tezuka, whereas other nations did not. Without Dr. Tezuka, the postwar explosion in comics in Japan would have been inconceivable."

KIMBA

The White Lion

Having created the greatest Japanese comic icon ever (*Tetsuwan Atom*, known in the U.S. as *Astro Boy*), Toyko-based artist Osamu Tezuka felt that he could top that success with the creation of a white lion cub that he called *Jungulu Taipei Leo* (*Jungle Emperor Leo*). Leo was the son of Panja, an intelligent and mighty white lion, who was acknowledged far and wide as the King of the jungle. Panja believed in fairness, in equal justice for all, and mutual respect among all animals in his domain. Tragically, Panja was shot and killed by heartless human poachers, leaving his son (Leo) to carry on the work of reforming the bloody, violent Law of the Jungle.

This was the concept Tezuka pitched to Japan's Fuji Television Network. Fuji TV agreed to underwrite and broadcast the series, just as they had previously done with Tezuka's previous smash hit, *Tetsuwan Atom*, but under two conditions: 1) Tezuka would have to shoot in color because, in 1965, Fuji Network was converting from black-and-white to colorcasting, and 2) because the projected budget for *Leo* was substantially higher than that of *Tetsuwan Atom*, Tezuka would have to find financing from another source. Presumably, this source would be America's NBC Enterprises, which had distributed Tezuka's *Tetsuwan Atom* under the name *Astro Boy* worldwide.

Those two conditions posed a huge problem for Osamu Tezuka and his Mushi Production studio. NBC, like Fuji TV, liked the concept of the series (in *Astro Boy* they had seen another *Pinocchio*, and in *Leo* they saw another *Bambi*), but NBC too demanded color, not black-and-white. Further, Tezuka would have to amend his original concept of the series to keep Leo always a little white lion cub.

Having no choice, Osamu Tezuka relented and agreed to both conditions. In late summer of 1965, the first episode of *Jungle Emperor Leo* arrived in NBC's New York City office (the film cans were labeled "Go White Lion!") and the package was delivered to me to create the English adaptation.

The first thing I did, for several reasons, was change the white cub's name from Leo to the Swahili word for "lion", Simba. NBC pointed out, though, that they could not merchandise the generic word "simba", so instead we changed the cub's name to Kimba.

The actual recording of English voices began in New York in November of 1965, with the same basic cast members that had voiced key roles in *Astro Boy*: Billie Lou Watt, the voice of Astro Boy, was now speaking for Kimba; Cliff (Ray) Owens was reciting Dan'l Baboon's lines; and Gilbert Mack spoke for the parrot Parley Cracker. Recording was going somewhat slower than usual - not surprising, given that the actors were hammering out new voices that were to be used for a wide assortment of wild exotic animals.

Then, suddenly, all the lights went out! The studio was plunged into total darkness! The date was November 9, 1965 - the day of the great power failure on the eastern seaboard! Somehow, all of us managed to return to our homes that night, half-joking that this event had better not be an omen of things to come, regarding *Kimba*.

As things turned out, nothing bad ever materialized. Quite the opposite. Power returned the next day, and the cast and I returned to the studio that afternoon to complete our recording. The rest is history.

NBC's production of *Kimba, The White Lion*, a 52-episode series in all, sold well both in the U.S. and abroad.

A full generation after its initial release, The Right Stuf International, Inc., in association with Madman Entertainment in Australia, have gone back to the original color negatives in Tokyo and made digital copies to recreate *Kimba, The White Lion* in high resolution. Their respective *Kimba* DVD sets were released in both Australia and in America in fall of 2005.

Osamu Tezuka, had he lived to see this day, would surely have been pleased.

ITEM LISTINGS

Ratings System

To benefit our customers, we have implemented a rating system for many of our products based on our staff's knowledge of each title's content, as well as input from the various anime suppliers.

N/R

This title has not been rated.

ALL

Generally acceptable for children. No nudity. Possible mild violence.

12+ 13+

May contain violence, brief nudity, and/or mild language. May suggest sexual situations, but no situations are shown. Parental discretion advised.

15+, 16+, 17+

Strong violence and strong language. Prevalent nudity may be contained within the picture. Mild sexual situations may be shown.

18+

Extreme violence, explicit nudity, and/or extreme language may be contained in the picture. May contain sexually explicit material. Absolutely not for anyone under 18 years of age.

Please note: Ratings used within our system are oftentimes provided by the manufacturer of the product. Because of the differences in ratings used by these companies, we have combined their systems, with the descriptions of the ratings listed above. Right Stuf does not set ratings (except for its own products) and is not responsible for errors, omissions, or inaccurate ratings. These ratings are guidelines only, and are subject to change.

Running Time / Video Length

Next to the age rating of each item, you will see the approximate running time listed for each video. Depending on the manufacturer, running times may or may not include extra bonus features such as previews. A N/A indicates that the running time is not available.

Edited and Uncut

Although many fans screech in horror at the very thought of altering the original Japanese version of a show, for a series to make it to American TV (or even into some retail stores) they must often be edited. This means that scenes containing nudity, excessive violence, blood, and foul language are altered or even totally removed. Anime purists may want the original in all its glory, but parents of young TV viewers do not. Manufacturers recognized this and often release both the Edited (TV Version) and the Uncut (Original Version) of the show.

Closed Captioning (CC)

While most DVDs these days have subtitles, not all have Closed Captioning (CC). For those titles which we know have this feature, we have listed CC in the line containing the item's part number.

DUB ONLY? SUB ONLY?

Although DVDs allow for the possibility of dual language anime, it is not always possible to license a title for dual language release in the States. So, you end up with manufacturers releasing Subtitle Only (SUB ONLY) or English Dubbed Only (DUB ONLY) DVDs. Subtitled DVDs display the dialogue on the bottom of the screen while the actual voices are still in Japanese. Dubbed means the music (probably) is intact, but the voices have been redone in English. In our online system, you will note that subtitled is represented by (S) and dubbed is represented by (D). You might also see (Hyb) which means that both the subtitled and dubbed versions are available on the same DVD.

Release Dates

If an item has not yet been released at the time of this catalog's printing, you may see a release date listed for the item. However, manufacturers can (and often do) change these release dates due to production delays. If you are ordering an item with a release date and are concerned whether this item is on schedule, please feel free to check the item's release date through its online listing, contact Customer Service at 1-800-338-6827, or even email Customer Service at info@rightstuf.com.

Mosaic

The digital "mosaic" effect is sometimes placed over the relevant bits during a particularly adult sequence prior to the title being exported from Japan. When we are aware that a particular volume or title has this effect, we'll mark it as Mosaic in the volume listing.

OVA (OAV)?

This means Original Video Animation. In normal terms, this means a direct to video release.

Essential Anime, Anime Legends, and Signature Series Editions

On certain DVDs from ADV Films, Bandai, and Geneon Entertainment, you will see them marked as "Essential Anime," "Anime Legends," or "Signature Series." These are re-releases of the original DVDs at lower prices. However, these new versions may or may not include all of the features that were found on the original release. If you are concerned that the DVD you are considering buying might not contain the features that you're looking for, please feel free to contact Customer Service or check the item's listing through our online store.

UMDs

A UMD, or Universal Media Disc, is a format designed specifically to play on Sony's PlayStation Portable (PSP) video game system. These discs cannot currently be played by any other system.

GENERAL

Why do you charge for your catalog?

Unfortunately, paper does cost money. In order to keep producing a

printed catalog, this means that we have to charge a small fee for it (but don't you think it's worth it?) However, you can get your money right back by using the \$4 off coupon on page 93! (Not to mention the tons of other great coupons back there.)

Will I get your next catalog?

If you've ordered something from us in the last 6 months, you will automatically receive the new catalog when it is shipped. If not, you may find that you'll stop receiving catalogs (and you will have to send us the current catalog fee to reactivate your catalog status).

When does your next catalog come out?

Why, every spring and fall!

Where are the Adult products?

Since our catalog is delivered to anime fans of all ages, we've taken anime precautions to ensure the younger fans are not exposed to products that contain explicit violence, adult situations, or sexual content (18+). Products of this nature have been placed in a special section just for adults. Please feel free to remove this section - it really won't hurt our feelings.

Please be aware that this does not mean that all items in the regular sections are intended for young children. To help parents, we've taken special care to make sure that products are marked with age ratings.

What's this "Got Anime" thing?

An easy way to get an additional discount on your favorite anime items. For a small yearly membership fee you get additional discounts, a Got Anime bumper sticker, newsletters and members only specials! Read more about the Got Anime Purchasing Club on page 10. Please note that international members of the Club will no longer receive mailings, due to postage cost.

Memberships are non-transferable, and will remain with the billing address of your account. If you move, please make sure to contact us with your updated information, so that we can update your membership information.

Why don't you carry that many imports?

Limited availability of imports and lack of timely distribution of such overseas items make it difficult to provide quality imports on a timely basis. We are continuously scouring the market to find a stable way to bring imports to our customers and hope to do so in the future.

Why don't you have <Title Here> Audio Soundtrack CD from Japan?

Um...I know I'm getting bad at geography, but I'm pretty sure that's an import - see above question regarding imports. You also might want to check our Soundtracks section because a number of titles are now being released domestically.

I really want to learn Japanese...

What resources do you have? Tons! This spring, Right Stuf has added an entire section dedicated to helping our customers learn about Japan and the Japanese language! Whether you're just starting out, or you're ready to move onto the next level, make sure to check out our new "Learn Japanese" section on page 36. It includes everything from textbooks and workbooks to memory aids and intermediate readers!

By Phone:

Domestic (US): 1-800-338-6827
International: (515) 986-1028

Please don't email your order, it's very unsecure and someone could steal your credit card number.

Can I get a new order form?

You can give us the information on the form or on any scrap of paper. As long as we can read it, you are fine (hierarchy physics just wasn't our specialty in any life). You can also print one from our online pdf at: www.rightstuf.com/orderform

How can I check on my order?

If you placed your order through our online store (www.rightstuf.com) you can check your order status when you login. Otherwise, simply call our friendly Customer Service people at 1-800-338-6827 or email us at info@rightstuf.com.

How long is a typical item "out of stock" for?

With a few exceptions, DVD delays can be measured in days. There are some freak delays, but 2-4 weeks is usually a safe figure. However, please keep in mind that some items are directly imported from Japan, and may be in short supply even there, and should the vendor be out of stock at the time of our re-supply order with them, it may be a bit longer. We keep thousands of items in stock, and our computer system automatically adjusts stock levels based on demand.

Can I use my coupons for an online order?

Yes, you can. Simply use the Coupon Code that is on your coupon when you place your online order. You can only use one coupon per order and only one catalog coupon per customer.

Can I order online Daily Deals or Special Pre-Order Discounted items through the mail or over the phone?

Sorry, but these special offers are only available through our online store at www.rightstuf.com and if you check in often enough, you might find some amazing deals online!

How many coupons can I use?

You can only use one coupon per order and some coupons can only be used through our online store. Please see coupon details for specific restrictions.

Do I need to add sales tax?

Only if you happen to live in Iowa.

If I move, should I inform you?

Certainly a good idea (Right Stuf would be the FIRST notice I'd send if I were you), especially if you want to keep getting stuff from us. Just drop us a quick note, giving us your old address, and your new address, so that we can update our records.

MAIL-IN ORDERS

I went to your online store and I wanted to order, but I don't have a credit card? Help! Should you prefer to flip through the online store to select items, you can actually use it to place an order by mail! Simply select all of the items you want and place them in your cart. When you proceed to checkout, make sure to choose the "faxed or mailed order" option. This will generate a printed form with everything already added up for you (no more calculators!) Just print this form and mail it in with your payment. Although you can use the online store to generate your order, nothing will be recorded by our system so make sure that you don't lose your form or you'll have to re-enter everything all over again! **Please note that online coupons are not valid on mail-in orders.**

I saw a coupon on the internet, can I use it? Some coupons and short term deals, such as "Shawnee's Daily Deals", can only be used through our website and cannot be honored for mail-in orders. This is generally due to specific date or manufacturer requirements which cannot be imposed on mail-in orders. Please review the specific restrictions of the coupon to see if it can be applied to your mail-in order.

I saw a special deal / daily deal on the website, can I put it on my mail-in order? See coupon explanation above.

Why do you hold my order for 18 days when I pay by check?

Even with all this cool technology, not all banks are utilizing Check21, and so checks can still require at least 18 days to clear. In a perfect world, this would not be so.

What's this NSF charge?

"Non-Sufficient Funds" means, in English, your check bounced. This is bad. We will charge you for this. There is a \$25 charge for all returned checks.

PAYMENT METHODS

Do you take Discover / VISA / MasterCard / American Express?

Yes to all. About the only plastic that we don't take are standard ATM and gasoline cards.

If I order using a credit card, when do you charge it?

Credit cards (by law in our state, actually) get charged only when the product actually ships. Unless there's some freaky deposit problem, that's the only time.

I'm an international customer.

What's with this extra data you need?

With international mail and credit card fraud becoming a growing problem, we felt it was better to ask you for additional information rather than charge everyone outside the country a lot more for their stuff. For first time orders only, we require a copy of some form of address verification which shows your address along with a photocopy of BOTH the FRONT AND BACK side of your credit card. For security purposes you may black out one set of digits. Upon request, Right Stuf can provide a secure website location for our international customers to submit this information. This policy only affects first-time international customers; however, should your address or credit card

information change, we will re-request this information in order to protect you and to update our records. This policy is in place to help keep credit card fraud to a minimum and to ensure that our customers have the utmost security when ordering with our company.

SHIPPING

How long does it take to ship an order?

From the time we receive the order and place it in our system, standard processing time to ship it is 24-48 hours. If some of the items are on back order, it can take an average of 10-14 business days for us to receive the back-ordered items. Then standard processing time goes into effect.

What are your methods of shipping?

Please see our order form for details and prices.

Are there more shipping options available?

Additional shipping options are available for orders placed by phone or through our online store (www.rightstuf.com).

How much is the shipping charge for prepacks / box sets?

Shipping is simple: use the amount for a SINGLE item.

I'm not at home during the day.

Can you ship to my office?

Certainly (in fact, we prefer to do this to ensure that you actually get your stuff), but please give us all the information that you can, including the name of the company, so that your friendly delivery person can get your package to you. We require that you include the business' name in the address. We are happy to work with you to get the product to you as quickly as possible. Unfortunately for American Express cardholders, American Express' own restriction policies will not allow this. You could also choose to have the product shipped to you by mail instead. Please note, this policy applies only to our domestic customers; for international customers, we must ship to the billing address on your credit card.

I chose express delivery and my order still took 2 weeks to arrive. Why? You must have ordered a product that we didn't have in stock at the time that we received your order. If an item is out of stock when we receive your order, we still ship it out by express delivery the moment we receive it from the manufacturer. Although we do keep significant stock on the items in our catalog, there are times when there may be delays getting items from the manufacturer, as discussed above.

What happens if my country will not allow me to have this sort of DVD / My order was seized by the border ... what now? Sorry. Please consult with the postal authorities of your country prior to placing an order for adult items. We will not be responsible for seized shipments, and cannot provide refunds for seized products.

RETURNING MERCHANDISE

When I got my <insert title here>, it was bad. What do I do?

If your merchandise is defective due to a flaw in manufacturing, we

are more than happy to replace the product. Unopened DVDs and VHS can be returned for Right Stuf store credit (or in the case of credit cards, refunded to the issuing card.) All returns/refunds must be processed within thirty (30) days of the date on your purchase invoice. If you need to complete a return/refund, please obtain a return authorization number from Customer Service at 800-338-6827 or visit our online request form at www.rightstuf.com/requestform

Do I have to pay shipping to return a product?

Yes, but we will pay the shipping to send the replacement back to you. We suggest using the least expensive shipping method available. Should an item have accidentally been shipped to you which you did not order, we will reimburse your shipping costs to return the item to us.

The packaging said it would include <special item>, but mine doesn't have it!

Unfortunately, we have no control over what the manufacturers decide to place inside of their products. Sometimes the manufacturers do provide special extras, but we cannot guarantee that these items will be inside of the products that we receive. However, should the item not be in your DVD, we would suggest that you contact the manufacturer directly. Of course, we are always happy to forward your request on for you!

PRODUCT INFORMATION

I saw this show that I think might have been Japanese Animation. Do you have it? We get questions like this all the time in the company email box. If you can give us enough information, someone can usually identify the program. Please understand, though, that if you ask us about something where "there's a girl who's like a magic user, a guy with a sword who has big hair, and a villain who wants to take over the universe, and I think there are some cat girls in it" there's a problem. This describes about half the films ever made. Also, knowing what a series or movie is doesn't mean that it's available in the US as a licensed product, but it's likely that it is.

Why isn't <title here> available in the US?

You might be surprised to find out how much of anime is available in the US. Of the few titles that remain unlicensed, some titles have their rights disputed, or licensors want more money than a title can possibly generate in this market, and, of course, some are currently in negotiation. With the exception of a few TV series (which are a different matter entirely, due to their length), this just about covers it. We do not sell fan subs of non-licensed products, or pirated copies of licensed titles.

Can I special order items that are not on the website?

Simply put, if it isn't on our website, we can't get it.

What are some good shows for children?

Although this is truly a matter of personal preference, we recommend Totoro, Kiki's, Pokemon, Kimba, Flint: Time Detective, and Astro Boy for young anime fans. You might also consider the Sanrio titles like Hello Kitty. Look for the "ALL" age rating in item listings for child-friendly titles.

What's the most horrible, tasteless adult anime you offer?

That really depends largely on the person you ask. Some would say Cool Devices and Night Shift Nurses, others Love Doll and Bible Black. These titles are certainly not for the squeamish, and are most definitely only for adults. Look for them in the Adult catalog.

REGION SPECIFIC

What is Region Coding?

Region coding is a geographical restriction for DVDs and players that allow for licensing of specific materials within different areas, or Regions, of the world. Since DVD players are region specific, you need to make sure that the DVD you purchase is coded for the same region as your player.

What region is your DVD player?

If you purchased your player from a retail outlet in the US, it should be Region 1. You can check the Region coding on your DVD by looking for the Region Code symbol on either the silkscreen or the packaging.

Region Coding List:

- 1- United States of America, Canada
- 2- Europe, including France, Greece, Turkey, Egypt, Arabia, Japan and South Africa
- 3- Korea, Thailand, Vietnam, Borneo and Indonesia
- 4- Australia and New Zealand, Mexico, the Caribbean, and South America
- 5- India, Africa, Russia and former USSR countries
- 6- People's Republic of China

What Region are your DVDs?

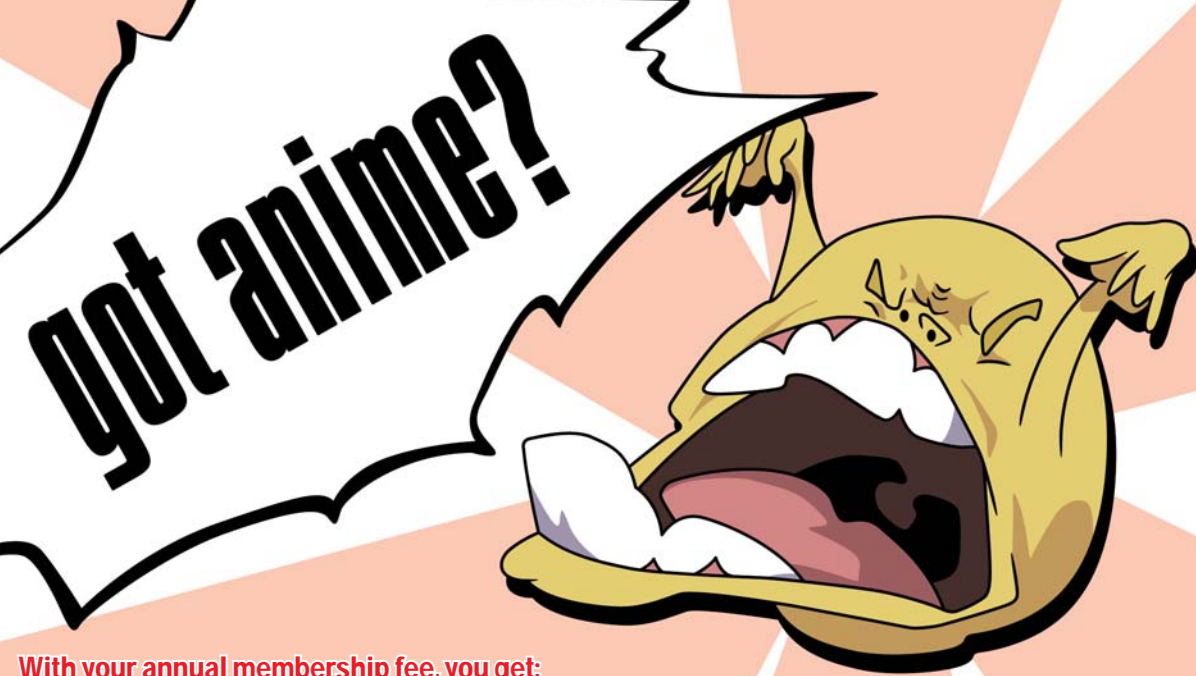

We primarily carry Region 1 Discs. However, we do have a small handful of DVD titles that are multi-region and even Region-free. We've tried to mark them where possible.

Why is THIS DVD better than THAT DVD?

Like many things, it's the talent of the people who did the mastering. Although the format supports a very high quality image, the preparation of the material determines how good the final will actually look.

Can my DVD play in a Playstation 2?

It depends on the DVD. There have been instances of some DVDs having difficulty playing. While the vast majority will work just fine, we cannot guarantee all anime DVDs will play correctly on a PS2.

ちょっと待って! これを読んで下さい!!
(WAIT! READ THIS!!)

So now you've done it. You're totally hooked on anime and manga and all you want is more, more, more! While you could wait for everything you want to finally get picked up for the States, you could also take the next step and learn Japanese yourself! To help you along on your quest, this year we've created the new section you see before you: "Learn Japanese". We've gathered some of the top textbooks and learning aids to get you started. Looking for something that you don't see here? Drop us a line and let us know what you're searching for!

Now, before you leap into this section, here are some notes on the Japanese language for total beginners:

Japan has three different sets of writing: hiragana (a syllabic alphabet usually used for native words), katakana (a syllabic alphabet usually used for foreign words), and kanji (symbols representing whole words/concepts). "Kana" refers to both hiragana and katakana. You'll want to start out learning kana, and then work your way up to kanji.

You've probably also heard the term romaji tossed around. Romaji is basically writing out Japanese words using the western ("Roman") alphabet. So while "dog" is "いぬ" in written Japanese, you may also see its romaji form of "inu" in Western textbooks.

The best way to get a true grasp on the language is to start with a series that focuses on hiragana and katakana, but some Westerners aren't as comfortable learning that way. So for those of you who just want a quick jumpstart, you may want to check out the books that focus on romaji. We've tried to mark which style each book uses.

study of the Japanese language at the basic level. It covers the first semester of college-level beginner's Japanese, and contains 24 lessons, each representing one week's instruction. Each volume includes a CD-ROM.

GET FREE SHIPPING ON YOUR ORDER!!

If you live inside the US and your order exceeds \$49 (without freight) then Economy Shipping is FREE for domestic customers.

SHIPMENTS TO MILITARY ADDRESSES & US PROTECTORATES

Our domestic standard rates are simple: in the US including APO (AA, AE, AP), FPO, PR, GU and VI please use the Domestic Shipping Options. Please be aware that if you have a PO Box, or are stationed in the service, our standard shipping is by mail because UPS will not deliver to these locations. If you live outside of the areas above, please use our International Shipping Options.

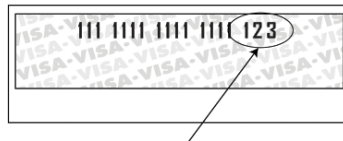

SPECIAL NOTES FOR OUR INTERNATIONAL CUSTOMERS

Shipping companies may charge an additional fee for delivering your package to a foreign country. Such fees and customs duties are not included in our shipping price, and are your responsibility. We will not be responsible for seized shipments, and cannot provide refunds for seized products. Please check to make sure you are in compliance with all local laws if you are ordering an adult product(s). For first time orders only, we require a copy of some form of ID (can be drivers license, passport, credit card statement, utility bill, etc..) which shows your address along with a photocopy of BOTH THE FRONT AND BACK side of your credit card. For security purposes, you may black out one set of digits. This information is to help keep credit card fraud down and is for your protection as well. Upon request, Right Stuf can provide a secure website location for our international customers to submit this information.

I'M RUNNING OUT OF FORMS!!

You are hereby authorized and deputized to make copies of this order form. As long as we can read it and all the information is there, you're fine. Copy away. You can also print one from our website at: <http://www.rightstuf.com/orderform>

SHIPPING INFO:

Please allow 2-6 weeks for delivery. It will almost certainly be closer to 2 than 6 weeks, but we like to error on the side of caution. Shipping confirmations are often sent via email address!

Please make sure that there is someone at the address we are shipping your product to who can sign for your package. If someone will not be available at your home, consider having the package shipped to your work address (include your company name). If your package is returned to us, we will charge you additional shipping to reship it.

Express shipping means that your order will be shipped via 2 Business Day UPS. Actual shipment time can vary based on whether the item(s) is in stock at the time we receive your order. If you need your order as soon as possible, please consider placing your order over the phone (800-338-6827) or through our secure online store (www.rightstuf.com)

Preorder release dates can (and often do) shift about without the manufacturer informing us. If you are concerned about your preorder status, please contact customer service at any time or check the latest information on product updates on our website (www.rightstuf.com).

PAYMENT METHODS:

We accept Checks and Money Orders in US funds. Sorry, no international checks. Please make all checks / money orders payable to The Right Stuf International, Inc. All checks require at least 18 days to clear our bank. Sorry, no CODs.

We also accept the following payment methods: MasterCard, Visa, American Express, or Discover. Sorry, you can't use your Mom's Sears card ... or your Dad's BP card. For security purposes, we may contact you for additional information which may delay your order.
